

JANE HANN 82-2119 30 SEP 23 P2:12

I am writing  
in regards to a recent  
article I read about  
genetically modified foods.

As a vegetarian  
and naturalist the  
article subject extremely  
upset and worried me.

I would like to voice  
my strong and urgent  
protests for the labeling  
and further safety testing  
of all genetically modified  
foods.

Please take my concerns  
into account and, if  
possible, send any  
information on how I  
could ~~support~~ support the movement  
against GM Foods to:
